Wanna invest in Poland? - let us  
guide you

2019-01-11 17:07:51

Polish Investment and Trade Agency has several dozen branch offices scattered around the globe. One of them is our office in the heart of Copenhagen. We support the development of domestic business abroad and the inflow of investments into Poland. Are you an investor looking for new business opportunities? Let us help you on the way.

Each investor has a unique specificity. Specific expectations require the right approach to the investment process, tailored to the needs of the client.

We provide comprehensive investor support at each stage of the project. We arrange study tours for companies interested in Poland as well as on-the-spot visits for investors with specific business plans. We offer strategic advisory in the selection of investment locations and provide reviews of macroeconomic and microeconomic factors and cost drivers at each location. We assist investors in the development and implementation of the timetable of investment projects. Last but not least we help to establish business relations and prepare a tailored selection of potential Polish suppliers and contractors necessary to implement the project in the optimum way.
